

Community Mediation

**Are you involved in an uncomfortable situation?
Do you feel you are not listened to?
Are you feeling angry, frightened or isolated?**

Sometimes people just don't get along, it is a fact of life.

Most of the time you can avoid these people, but if you live next door to that person, or see them on a regular basis, communication can break down and disagreements can get out of hand.

Our mediators are highly skilled, impartial individuals from a variety of backgrounds, cultures and origins. They will listen fairly to both parties, help sort out the issue and reach an agreement that all parties can live with.

This service is free of charge to residents of Milton Keynes. Call us now to see how we can help.
